DETAILED ACTION

Claims 26, 27, 32 and 33 are currently pending in the instant application, are allowable over the prior art of record, and are renumbered as claims 1-4. Claims 28-31 were cancelled by applicants amendment after final which was filed 15 July 2003.

Response to Amendment

Applicant's amendment after final faxed 15 July 2003 has been considered and entered into the application.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to compounds of the formula as found in claim 26 wherein the ring B is a thiazolidine and D is SO₂. The novel and nonobvious aspect of this invention involves the SO₂ substituent on the nitrogen of the thiazolidine ring and the substituent at the 2 position of the thiazolidine ring. The closest prior art of record, Mimoto et al., which discloses thiazolidine compounds which differ from those as instantly claimed for the treatment of HIV, fails to teach or suggest the compounds as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
